Mumbai High Defence Academy

WELCOME TO MUMBAI HIGH DEFENCE ACADEMY

Mumbai High Defence Academy is lead by highly qualified and dynamic personality with rich experience in the field of defence. Our experts participate and deliver lectures on Personality Development, Leadership Qualities & Safety. With their excellent leadership qualities and positive attitude, we inspire and guide all students to achieve their career objective by unfolding latent potential.

At Mumbai High Defence Academy, we have well-structured course activities, mock tests, solving of earlier years question papers and summarized study material. Our training programs feature a combination of content-rich lectures and intensive modeling of classroom activities with computerized notes.

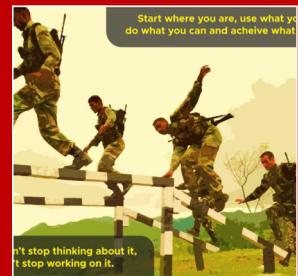

Despite many existing Coaching Centers available in India to guide students to crack the IIT JEE (Mains and Advance) there are very few such institutes which channelise students into the National Defense Academy and 10+2 Technical Entry Scheme TES. These institutes have successfully been able to get the students qualify the written test of the NDA but they often have not been able to ensure the final admission into the academy primarily because they only focus on the academic part and rarely focus on the preparations for the Services Selection Board (SSB) Interview Process.

At Mumbai High Defence Academy we are not only preparing students for the NDA/TES/IIT-JEE (Mains) but they will also be groomed systematically over two years for clearing the SSB Interview. Hence, Mumbai High Defence Academy blends the two essentials namely the preparations for the written test conducted by the UPSC and clearing the SSB Interview.
